

CONFIDENTIAL

4. [] Received a call from Eileen Roach, NSC staff, who inquired about the expiration date of the House Select Committee as established in H. Res. 138, and I explained the history of the date in the resolution and the Republican attempts to change it. She was quite appreciative.

5. [] Representative Jack F. Kemp (R., N. Y.) visited the Agency for breakfast with the Director. Also present were Messrs. Duckett, Nelson, Warner, Iams, [] and myself. Mr. Kemp is a dynamic and very interesting individual. He is favorably disposed toward the Agency, and a free and open exchange took place. He is truly concerned about the attacks on the Agency and indicates that he is not afraid to stand up and be counted on issues and topics that he thinks are right. He is particularly concerned about the present clamor in some quarters for an open budget for intelligence agencies. He is interested in whatever background material we can provide him to make him better informed on the Agency and its activities. He was given a copy of the Director's prepared statement for delivery before the House Select Committee on Intelligence in a session which was cancelled because of Chairman Lucien N. Nedzi's (D., Mich.) resignation. Following our breakfast session, Mr. Duckett and I took the Congressman on a tour of the OEL Center.

6. [] I talked several times during the day with Sam Goldberg, State Department, concerning wording of State's reply to Questions 6 and 7 of H. Res. 536. This is a resolution introduced by Representative Michael Harrington (D., Mass.) on the Mayaguez incident. Questions 6 and 7 concern possible intelligence and covert activities in the Cambodian area at the time of the seizure of the Mayaguez. We also talked with Marian Czarnecki, House International Relations Committee staff, about our suggestions for a reply and after conferring with the Director provided Goldberg with the material he needed.

7. [] At his request Mr. [] and I met with Tom Smeeton of the House International Relations Committee Minority Staff, who on an informal and nonattributable basis provided us with a copy of a draft proposal for a joint committee on intelligence, which Representative William Broomfield (R., Mich.) plans to submit soon. Smeeton asked for our comments and criticisms (see Memorandum for the Record by []).
